PatentOrder

Locate, order, store and archive digital patent copies.

Easy access to the world's patent libraries – an ideal web application software for every patenting organisation.

PatentOrder delivers documents fast from public and private patent servers around the world.

There is no need to know where a document is stored and number algorithms help locate documents. You can get on with other tasks during the download and multiple documents can be ordered at once.

Easy to use, **PatentOrder** can be integrated with existing resources on Intranets if required.

- High speed delivery
- Unlimited PDF's
- Very easy to use
- Flexible pricing

PatentOrder Order Trace Orders Help

Order patent documents here or by one of the alternative methods described below the order form.

- For known patent document numbers, enter the patent numbers-one per line-into the order box below and complete the options as appropriate.
