

Patent Viewer

Organise, manage and examine your patent portfolio

Minesoft Patent Viewer is a patent document management system, with a special toolset for viewing patent documents.

Using Minesoft Patent Viewer, individuals, departments or whole companies can organise their patent portfolio into Folders and Work Files easily and efficiently.

Examination

Viewing and examining lengthy patent specifications is made easy with the Minesoft Patent Viewer. Bookmarked PDF documents and hyperlinked bibliographic and full text information are displayed in a split screen mode, so that the study and comparison of text, drawings and chemical structures as well as navigation through documents is simplified.

Distribution

Links to INPADOC patent family, related legal status information and an "Add Notes" feature are provided. An "Export" option allows for distribution to a wider audience if necessary.

Highlighting tools

Integrated tools, such as relevance ranking and grouping keywords by colour highlighting, make it really easy to identify relevant documents and pertinent keywords.

The Minesoft Patent Viewer is recommended for anyone managing or examining patent documentation. 24/7 accessibility via URL by User ID and password makes set up and maintenance simple yet safe, while one fixed annual fee offers budget control.

Minesoft Patent Viewer is available for demonstration. Please email: info@minesoft.com for further information.

Minesoft Ltd is recognised for its delivery of intellectual property solutions and self-explanatory user interfaces. Its clients are leading corporations, worldwide, for whom it provides specially tailored services and customised products at the forefront of today's patent information market.
